NEW! PUPI® FIBERGLASS EQUIPMENT MOUNTS

For 3 phase mounting of cutouts, arrestors & cable terminators. Mounts up to 6 pieces of equipment.

PUPI FIBERGLASS IS AN ENGINEERED MATERIAL WITH SIGNIFICANT BENEFITS OVER WOOD, STEEL OR ALUMINUM:

- Features SunGUARD® UV resistant coating and TorqueGUARD™ bushings
- Is non-conductive and light weight
- Needs no harmful chemicals to protect from decay or insects
- Does not shrink or lose strength over time
- Will not rust and never needs re-coating – 100% maintenance free
- Smooth surface sheds contaminants and does not absorb water
- Additional equipment brackets may be added
- Tested to support over 500# per phase position
- Ships pre-assembled

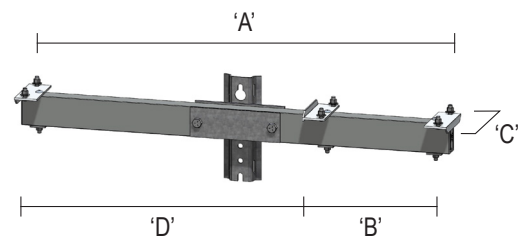

MOUNT TYPE S: 2" X 4" PROFILE EQUIPMENT MOUNT - OFFSET SPACING

- Aluminum 6061-T6 end fittings
- Galvanized steel equipment mounting hardware with 1/2" captive bolts
- Galvanized steel pole mount 1/16" slots and 8-10-12" hole spacing (5/8" pole through-bolts not included)

STANDARD CONFIGURATIONS:
